## Which Mortgage Is Right For You?

A 15-year mortgage versus a 30-year mortgage, here are some things to think about:

### With a 15-year Mortgage

- You build equity much more quickly
- You own your own home in half the time
- You save more than half the amount of interest
- The rate is typically lower than the rates on 30-year mortgages and stays the same throughout the life of the mortgage

### 15- vs 30-Year Mortgage Illustration

	30-yr @ 3.5%	15-yr @ 2.75%
Loan Amount	\$100,000	<b>\$100,000</b>
Monthly Payment	\$449.04	<b>\$678.62</b>
Total Interest	\$61,657	<b>\$22,152</b>
Savings	\$0	<b>\$39,505</b>

The 15-year mortgage may or may not be right for you, but it's worth considering. We also suggest consulting your tax preparer for any questions regarding tax deductions.
